Air Threat is a first person helicopter simulator. This is a game with something for everyone, from flytippers and oil drillers to those who like to play a little bit of Killzone. It's also pretty good for anyone interested in pure education. Enemies come in all shapes, sizes and forms, from traditional jetfighters and bombers to stealthy fighter/bombers and even tanks. As the game progresses, the playing environment becomes ever more complex. A never ending assortment of objects, such as the giant spools of cable, docks, ammo depots, bridge supports and fuel depots add an air of survival horror to the game, especially when you are running low on juice. The player's role is simple: choose the vehicle you would like to play and to shoot or kill any enemy in sight. The first time you take off is a bit of a baptism by fire, and in the land of Air Threat it isn't until later in the game when you are equipped with a weapons upgrade that you will become comfortable flying the aircraft. Time is of the essence, and speed is as important as accuracy. There is a good chance that the enemy will use your speed against you, and if you are too slow, you are much more likely to be shot down. A trip around the world of Air Threat can be as short or as long as you wish - it's up to you and your personal situation. Features:- 2 Dynamic campaigns- 20 missions that will take you through the most realistic and exciting experience of Air Threat- Killzone missions, where you can take on the enemy for the glory of the Killzone. Try it and see what you can do.- A fun and exciting multiplayer mode, where you can play against other people and earn reputation points- The new Bomblime map, where you will have to survive in the face of hazardous obstacles- An interesting and rewarding simulation mode, where you will learn something new everyday.- A good graphics quality, which allows you to play the game in high resolutions.- A high end sound quality, with high-resolution stereo-sound effects.- And many others, including all new areas, missions, and flying vehicles. About the Author: Vitaly Sbric - A student of "Flying Simulators", has a long record of publishing highly-acclaimed flight simulators for mobile platforms. He is also the founder and chief

Fishing Sim World®: Pro Tour - Lough Kerr Activator [April-2022]

Radius-Wing is a SHMUP inspired by classics such as Space Invaders, Galaxian, and Defender. The game offers six different ship designs and over twenty enemy types to keep your competitive juices flowing. A detailed level editor, online leaderboards, achievements and online multiplayer for up to 4-players round out this release. Collector's Item: Shipped To You Inside of a handmade orange velvet raddam This is a limited and rare collectors item. It is the only production of this title in existence. Your version of this art pack is exactly like the one in the background of the main screens of the game. The difference is, you'll have the ability to customize the colors to fit your style of art. Additionally, for a very limited time, you can place a special watermark on your new art. This process will highlight your art, save it to your computer and be available for future projects. All possible components are also available in their own separate pack which includes the same number of shots, flashes, bullet-smoke and explosions as the SHMUP Art Pack, plus the additional power-up crates. Exclusive HD Wallpapers Create your own original wallpapers right from the editor using images from the RADIUS-WING SHMUP ART PACK! Customization You are free to change almost every aspect of the art pack and make it your own. From the component sizes to the color palette to the bullet "spinner" size, it is up to you! Import your design and customize With the import option, you can choose a combination of options to create a customized art pack from scratch! Use your own images and colors, or use the included images and color palettes. You can even include and exclude shots or components to get the best fits for your game. Remember, this edition is just a collection of the included art pack. You are free to make it your own by changing its look and feel with the customization options. To access the Complete Ludus Trial, you'll need a copy of Ludus which is not already installed on your PS4. It will be available as a free download. The Complete Ludus Trial is a free game voucher. If you already have a copy of Ludus on your PS4, you'll get the Complete Ludus Trial as a free download as a gift from us. How can I get a free copy of the Complete Ludus Trial? There are several ways to get a free copy of the Complete Ludus Trial. We have the following options available: 1. Register the PS4 you're going to use for Ludus here: 2. Send us a message here in the Contact Support section (link above). Your message has to be: * Unregistered PS4 (you'll need to register) * Your name (first and last) * Your email address We will then contact you about the method to get a free copy of the Complete Ludus Trial. How long will it take until I get my Complete Ludus Trial as a gift? A gift will arrive in your mailbox in a few days. Depending on the method you chose and the method of processing your gift request, your gift might arrive in different times. Do I need to register my PS4 in order to get my Complete Ludus Trial as a gift? If you want to get a free copy

What's new:

, by Francois B. Devienne Noah's Tower, Book One (Apple, \$6.99) Francois B. Devienne lives and writes in the dusty town of Amana, Iowa. He grew up watching the Vikings on History Channel, which is probably why he has the same sharp eye on Bronze Age civilizations as the stories he tells are immersed in a world lost to history, but not forgotten. For more information on Francois Devienne, please visit his website. If you want a real escape, you might want to head over to the ancient Viking settlements across the hills of Northern England. The people who built the famous series of brochs, great stone towers that rim the seashore, are one thing, but the life they led in the homes below could make even the most jaded traveler take notice. When Francois Devienne was researching his latest series of novels, Old Frontier, he set off to northern England to gain a better understanding of the ancient Viking settlements discovered there, and just like most of his characters, he has become enamored with this landscape. He writes that the first time he watched the collapsing cliffs of the Northumberland coast, he was actually frightened. But, he says, "A closer examination made me admire the power of erosion. A meeting point of sand and basalt creates all sorts of fantastic shapes, with the power to collapse at the slightest misfortune." The setting of the Viking settlements is his means of expressing what these settlements imply. The stories he writes mimic the fears and ambitions of the Viking heroes, in the hope that his contemporaries might take the same interest in the adventures of early Norse folk, and their struggle to survive in a sometimes hostile world. The significance of these settlements, erected as defensive towers on the very edge of the sea, is clear to anyone who would look closely. "When it comes to the defense of the coast, a wall is still better than a tower," Devienne says. "There was a moment, in my research, when I realized that if one person defended his home successfully, all of his neighbors were safe. That certainly gave me a sense of what Vikings were experiencing." But never was it so obvious as in Old Frontier, where a priestess finds herself alone on a shore ravaged by a vicious storm that threatens to wash away what's left of the settlement's forgotten past, and that

Lightspeed Frontier was developed by Alexander Melov, and is the first game I have ever worked on. The game has now been released on Steam for Windows, Mac and Linux. It is released under the MIT License, with a donation being highly appreciated and put towards improvements and documentation of the game. :) The Space-Pirate Adventures consists of an Adventure Game, Trading Game, Exploration Game, Trading Game and History Game. The adventure will consist of about 5 to 6 hours of playtime. Trading takes about an hour and Exploration will take about 2 hours. The History Game takes an additional 30 minutes and has a separate storyboard. Key Features: -Take on the responsibilities of a captain on the frontier of space. -Build modular ships and fight off your enemies. -Invest in the stock market, research and export tech to make more money. -Employ the help of The Agency to negotiate deals and avoid hostile encounters. -Travel the Frontier and meet (or avoid) countless characters. -Join up with factions and rebel corporations for easy money and a faster route to the top. -Own your own ship, and trade/do odd jobs to earn money. -Hunt down bounties for credits and upgrades. -Build and upgrade hundreds of ships for a plethora of uses. -Play the Trading Game to gain experience points, and level up your trading skills. -Plan your attacks with your ship crew to improve your combat with every mission. -Buy and sell traderships, merchandise, and other loot for credits and even more credits -Customize your ship with multiple pirate parts and technologies. -Take on your enemies and complete bounties. -Make the most powerful ship you can and trade all across the universe. -Blaze your own trail and find out what's out there. Installation: -Unzip and mount the Disk image. -Download SteamInstall. -Run SteamInstall. -Open the Steam client and login or create a free account. -Click Games and then click Add a Game to Steam. -Find Lightspeed Frontier: Space Pirate Adventures and click Add a Game. -Click Install Game and then click Begin Install. -Wait for the download to complete and then click Install. -Close Steam and wait for the game to load. -Open and play the game. Recommended Minimum Specifications: -Windows: -Operating System: Windows 7, 8, 8
